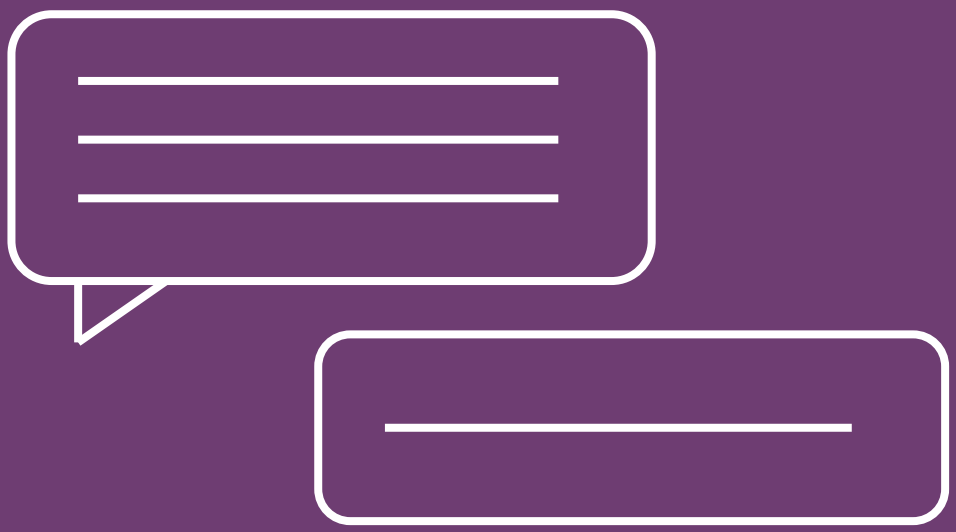
Practise One Skill

Design a short practice session with a useful feedback loop



SanjAI Matta

Published by Sanjay Matta | English | Digital PDF

10 focused pages + editable companion | 12 November 2026

One useful result

Design a short practice session with a useful feedback loop. Work through one lesson at a time, then use the three printable worksheets on a real, low-stakes situation.

Your route through this mini book

1. Choose a small performance

2. Define a check you can use

3. Change one thing in the next attempt

4. Plan a repeatable next session

Read the lesson, compare the worked example and complete the action. Pages 7-9 are writing sheets; page 10 helps you review the result. The editable Markdown companion contains the same prompts for reuse in a notes app.

For personal learning and practice. Examples are fictional; adapt the worksheets to your situation.

Choose a small performance

A skill becomes easier to practise when you name something you can do and observe. “Be confident” is broad; explaining one idea clearly in a minute is a performance you can review. Choose a low-stakes skill that matters to your real work or interests. Separate learning the task from judging your identity. This workbook organises practice; it does not promise mastery within a fixed number of days.

Worked example

A person wants clearer telephone explanations. Their first practice is to explain how a customer receives a PDF, using three accurate steps and a clear finish. They are not trying to improve every conversation at once.

Try it now

Write the skill, one small performance and the context where it would be useful.
